I thank the vets at the Ark Practice enough for the care they have taken of my greyhound who continues to astound us all by recovering from bouts of ill health; thanks, in great part to the treatment she receives from the Ark. We know she has a life-limiting condition but whilst we are all agreed she has a good quality of life we continue to treat her and give her the best opportunity to recover from periods of being poorly. I trust the advice we have from Mr Lindsay and Miss Fielden at the Ark and know they always have our dog's welfare at the forefront of the advice and treatment they provide. The Ark charges are entirely reasonable - especially their call-out fees. The fact that they cover all their own out-of-hours calls is very reassuring when you need to call in an emergency. We have been amazed and grateful for their willingness to carry out home visits both in and out of normal working hours when our dog has not been well enough to take to the surgery. I wouldn't hesitate to recommend The Ark to anyone looking for a veterinary practice offering a truly caring service together with sound clinical knowledge and skills.

We have been using The Ark Veterinary Practice for about eleven years now and have received the highest professional care for our cats and now our dog. The staff are very friendly, honest and have shown great care for us as clients and for our pets. We highly recommend the Ark Veterinary Practice.

We have used the Ark for about 15 years since we moved to our current house in Bearley, for various cats and dogs, from puppy through to end of life and various operations along the way. Totally impressed with them, professional but always friendly.

On two occasions I have contacted them, one about a stray dog on New Year's Day and on another, when a dog was in collision with a car outside our house and badly injured - not our dogs. On both occasions, no hesitation, bring them down. This was with no expectation that they would be paid but concern for the welfare of the dogs. Both animals were reunited with their owners.

I have no hesitation in recommending this practice. Everyone there is great.

I have used this place for years and can't rate them highly enough. Staff are friendly and go above and beyond in traumatic times, they don't overcharge and never recommend treatment that isn't necessary. I trust them 100% with all my animals and wouldn't ever dream of going elsewhere.
